Guidelines for Completing the Online Learning Agreement Form

1. Courses listed under TAF B1 **cannot be taken abroad**. These courses must be completed at the University of Siena.
2. Courses under TAF B2 or C **can only be taken abroad with prior approval** from the corresponding course coordinator of the AM Master's program at the University of Siena. The student must contact the coordinator for each course they intend to take abroad, providing the syllabus or course description from the host institution. The coordinator must then send an email to the Teaching Committee confirming their approval.
3. Courses in TAF D may not have an exact equivalent at the University of Siena, as they are free-choice courses. Nevertheless, the student must select possible substitute courses, which will be included in the study plan in case the chosen courses abroad are not passed.
4. Each course taken abroad may differ by a **maximum of 2 credits**. However, the **total credit difference** for all courses taken abroad **must not exceed 3 credits**.
